BRECKENRIDGE COUNTY REPUBLICANS MEET

In Convention at Hardinsburg
Saturday—Resolutions Adopted—Faith in the Platform.

H. M. BEARD, CHAIRMAN.

The Republicans of Breckenridge county met in convention at Hardinsburg Saturday, responding to the call of the chairman. About fifty Republicans responded to the call.

The convention was called to order by Chairman H. M. Beard, who stated the object of the convention.

Judge D. D. Dowell read the call. On motion Luke Blackburn Reeves was unanimously chosen chairman and Judge D. D. Dowell secretary.

On motion of W. Sherman Ball the chair appointed the following committee on resolutions: Squire D. C. Heron, J. Raleigh Meador, and the Hon. Walter Henninger.

The committee retired and in a little while returned the following resolutions and lists of delegates.

Their action was endorsed by the convention and then adjourned.

Resolutions Adopted by the Breck. Inridge County Republican Convention, Saturday, June 12, 1915.

Resolved, That we reaffirm our allegiance to and faith in the various planks and principles enunciated in the Republican State platform of four years ago, chief among these being a declaration in favor of the following measures:

1st. A fair, honest and constitutional apportionment of the State in to the various districts so as to comply with the plain requirements and provisions of the constitution, which is based on the very foundation of Republican institutions and representative government, so as to give to each voting citizen as nearly as possible, an equal voice in the government as is possible and attainable, and which requirement, the Democrats have for more than twenty years, ignored and violated, to serve their partisan ends.

2nd. A corrupt practice act, such as nearly all of the States and Federal Government now have. The purpose of which is to promote honest and fair elections, eliminate bribery and corruption, give the worthy poor candidate an equal chance with the rich, encourage civic righteousness and send the election crooks to the penitentiary instead of congress.

3rd. A direct primary law that is honest, fair and practicable, such a one as will give the voters of all parties the opportunity to express themselves and their choice of candidates for all offices and will permit any party to nominate any man for any office that it may choose, without being circumscribed and hampered as by the present law, designed to serve partisan purposes.

4th. A County Unit Local Option law giving to each county home rule and the power and privilege of saying whether or not liquors shall be sold within its boundaries.

Resolved further, That whereas, the great cardinal principles of the Republican party in national affairs, are such as

all of the members of that party are and have always been united and agreed, and whereas, these policies and principles are permanent and enduring and are based on economic laws, conditions and truths that are unchanging, chief among them being:

1st. The Republican American Protective tariff system, designed and destined to protect the American manufacturer, American farmer and the American laboring man against the coolie, peon and pauper labor of foreign countries, under which system this country has made the most wonderful progress, strides and developments of any country of any age in the world's history; that policy that has preserved America for Americans and has made it the Garden of Eden of the earth; where capital yields the greatest returns and labor is the best paid and receives the greatest rewards; where its people are the best fed, clothed and housed, where they are the best educated and enlightened; where they are the most prosperous, the most moral and happiest, and yet with all of this, it has always wisely produced sufficient revenues to pay the expenses of the government.

2nd. A sound and stable currency and honest money, which coupled with the system of the protective tariff is the surest preventive and cure for panics and hard times and a producer of peace, prosperity and progress.

3rd. Such a foreign policy as will at all times command and demand respect for our people, country and flag from the nations of the earth, and protect and defend our property, rights and lives wherever distributed or found, whether in foreign land or upon the high seas. A policy with backbone and red blood, to which spineless, aimless watchful waiting and "grape juice" are unknown.

BRECKENRIDGE COUNTY FAIR PLANS ARE ON

Directors Are Busy—With Assistance and Interest of Every Citizen, Great Fair Will Be Held.

LIVE INTEREST IS SHOWN.

A bunch of live, progressive business men and farmers have their heads and hearts, their energy, their brains and all that goes to make a success the County Fair at Hardinsburg to be held August 18, 19 and 20. Twenty-five good men are behind the fair this year, and they will surely make it a go and give us one of the best fairs ever held there. What they want and must have, is the co-operation of every man, woman and child in the county to help them bring success to an institution that helps to build up the farmer, the merchant and the live stock dealer.

There is no better stock, nor a greater variety raised in any county in the State than there is in Breckenridge county. There are no better class of farmers. While they do not farm on an extensive scale, as in other counties, what they do raise is good and compares well with any county. Breckenridge county is growing better every year. Better farming is going on and crops are more diversified. The farmers have more products to sell and are not depending on just one staple.

The object of a County Fair is to bring all these products, and the people who raise them, together once a year; to take a look at what their neighbors are doing, get new ideas and new inspirations to help them in their work. The County Fair is to Breckenridge county what the State Fair is to the State of Kentucky.

It's a means of development of information on all things that go to make up a good county and intelligent, prosperous and successful citizenship.

Now, good people, from every nook and corner in Breckenridge county, the Fair Management appeals to you to help them make the fair this year a grand success. There is no good reason why we shouldn't have one of the best fairs in the State this year. There never was a better time and finer prospect. All hands get their shoulders to the wheel and push it to success. Get ready now.

RECORD WHEAT CROP FORECAST

Estimated by Government For 950,000,000 Bushels This Year.

Washington, June 8.—A billion-bushel wheat crop, the greatest ever grown in the world's history, is indicated for the coming harvest in today's forecast by the federal crop reporting board on the growing winter and spring wheat crops.

Should that enormous quantity be harvested the United States would have upward of 385,000,000 bushels of wheat during the coming year to supply the demands of the warring European nations, which are expected to increase rather than diminish. Domestic consumption this year probably will reach 535,000,000 bushels for food purposes and about 80,000,000 bushels for seedling.

Basing its forecast on the condition of the growing crops on June 1, the crop reporting board today estimated the final production of winter and spring wheat combined would be 950,000,000 bushels. The actual production, however, will be greater or less than the figures stated in proportion as conditions from June 1 to harvest time are better or worse than usual. A billion-bushel harvest, with good growing conditions, is not improbable in view of the fact that in the record crop year of 1912 the prospects increased 87,000,000 bushels from June 1 to harvest.

Influenced by the prospective heavy European demands for grain, American farmers last fall sowed the largest area ever planted in this country to winter wheat—40,169,000 acres—and this spring 19,248,000 acres were sown in spring wheat, exceeding last year's area by almost 2,000,000 acres. Winter and spring wheat areas combined show an increase of 11 per cent. over last year's acreage. The wheat sown last fall came through the winter in splendid condition, but deteriorated during May. Spring wheat was somewhat hindered by cool and wet weather, but on June 1 showed a condition 1 per cent. better than the average for the last ten years.
